In Collaboration With

Themed Weeks

Each Week the camp will run on a different theme this means that the activities are formed around the sport, we understand children might be at different levels and all the activities are by choice so there will be an alternative for children who do not wish to participate or an adapted level for them.

Climbing – Children will learn climbing on our climbing wall, top rope climbing and of course over water.

Coasteering week has many elements from zip lines to cliff jumping and sup around the coast even snorkelling on site we will be monitoring the movement of our shark mascot as well as crafts and sport.

We love urban sports from skateparks to graffiti, parkour lessons and much more, the week is packed full of new ideas and crafts like making pottery, growing crystals, days out to go fossil hunting, a warrior water course and much, much more.

Health & Safety is our number 1 priority

The campus is held predominately outdoors which gives the possibility of maintaining social distance and minimizing the risks of COVID infections. Our staff will be testing regularly to ensure infections are kept to a minimum. Children will be provided with safety equipment for all our activities in line with UK H&S standards.
